PROFILE

Passionate Software Engineering graduate with hands-on experience in full-stack development and Agile methodologies. Proficient in all stages of project development, from start to deployment, demonstrated through my successful final-year project. Recognised for my strong problem-solving abilities, collaborative spirit, and dedication to delivering high-quality solutions. Eager to leverage my academic achievements and practical expertise to drive innovation and impact real-world settings.

EXPERIENCE

- Juris Technologies Sdn Bhd** APRIL 2023 - JULY 2023
Intern, Software Engineer
- Juris Technologies Sdn Bhd** AUGUST 2023 - SEPTEMBER 2023
Part Time, Software Engineer
 - Collaborated with teams to create and enhance software modules, meeting customer requirements.
 - Integrated software into customer IT infrastructures via web services and other technologies.
 - Worked with an in-house application framework in PHP and JavaScript.
 - Worked in AGILE squads, ensuring direct impact from collaborative efforts.
- Final Year Project**
SalonXpert - A Cloud-Integrated and Customisable Salon Management Solution
 - Developed a highly customisable SaaS cloud application for salon appointment booking and resource optimisation.
 - Led the project from concept to deployment, handling requirement analysis, design, coding, testing, and user feedback.
 - Utilised React, NodeJS, AWS, MySQL, Tailwind, and Docker.
 - Successfully deployed the application, receiving positive user feedback and high ratings from supervisors.
- Personal Project**
Discord Bot - Romaji Lyrics Finder
 - Built with Node.js utilising the Puppeteer library.
